Marketplace Leader

Frido has been one of the fastest growing D2C brands, leading the marketplace (Flipkart & Amazon) in orthotics & comfort in various product categories. The brand has scaled rapidly in the last 5 years showing a strong demand for its products and growing trust among customers in the premium wellness category.

120%

growth in 3 years

Frido has been one of India's fastest growing D2C brands in the comfort & ergonomic market showing strong demand for its product range

#1

in marketplace*

Frido is the market leader in comfort & orthotic products

Frido leads the premium orthotics marketplace because people trust Frido products to deliver quality and comfort. They know that the products we make are the best in India, where no corners have been cut on materials and design.

Pan India Presence & Support

Frido has a rapidly growing retail footprint with over 20 brand experience stores and a presence in 1000+ retail stores all across India.

We offer an active customer support system to help people pick the right product. We also replace most defective products within 7 days while offering an industry leading warranty on most of our products.

20lac+

Customers have bought & trust Frido products

Exclusive Brand Outlets in major Indian cities

Frido's Expertise

Frido originally pioneered mobility/wheelchairs to help enhance and dignify everyday living for people. We soon spread out into comfort and orthotics as a larger category.

We research and design our products in-house, instead of branding generic products. Which is why our products are far more comfortable, premium and effective than regular ones.

Partnerships

Frido has partnered with fitness and sport giants like Hyrox, Haryana Steelers (Kabaddi), local run clubs and sports centers to promote its orthotic products all over India.
